Personal Statement

I am an ambitious problem solver with a passion for web development. I have over 10 years experience doing front-end development and working with the full LAMP stack. In recent years I've worked on a diverse range of projects from content-managed sites for start-ups through to larger enterprise level applications. I'm currently seeking a new opportunity to join a team of like-minded developers.

Key Skills

- Front-end development including HTML5, CSS3 and jQuery
 - LAMP stack (Linux, Apache, MySQL & PHP)
 - PHP MVC Frameworks (inc. Zend & Symfony)
 - CMS Implementation
 - Web Services
-
